

Closing Leadership Training 2022-24

We have spent the last few days learning many new skills and developing new lasting friendships. As we have gotten to know each other we have learned new things about our Alpha Delta Kappa sisters on the board. We have laughed, had good food and a lot of fun.

As much as we enjoyed ourselves, we have worked hard as a team to learn skills needed to be on the California Executive Board. We will use these skills in the coming 2 years. Besides learning these important new skills we have explored new ideas on how to increase growth and strengthen our chapters in California and to continue make our State a leader in our organization.

Rosena has shared with us her vision for California. Being on the Executive Board with her will give us the opportunity to “ Step into the Future” and turn the visions for the upcoming biennium into reality.
